LIST OF CONTENTS

VOLUME 37 NUMBER 1 1990

B. Drukarch, E. Schepens and **J. C. Stoof**	Muscarinic receptor activation attenuates D_2 dopamine receptor mediated inhibition of acetylcholine release in rat striatum: indications for a common signal transduction pathway	1
J. F. Marshall, S. J. O'Dell, R. Navarrete and **A. J. Rosenstein**	Dopamine high-affinity transport site topography in rat brain: major differences between dorsal and ventral striatum	11
S. Villanueva, J. Fiedler and **F. Orrego**	A study in rat brain cortex synaptic vesicles of endogenous ligands for *N*-methyl-D-aspartate receptors	23
A. I. Gulyás, T. J. Görcs and **T. F. Freund**	Innervation of different peptide-containing neurons in the hippocampus by GABAergic septal afferents	31
J. J. Wagner, R. M. Caudle, J. F. Neumaier and **C. Chavkin**	Stimulation of endogenous opioid release displaces mu receptor binding in rat hippocampus	45
Y. Ben-Ari, K. Krnjević and **V. Crépel**	Activators of ATP-sensitive K^+ channels reduce anoxic depolarization in CA3 hippocampal neurons	55
G. Hess and **B. Gustafsson**	Changes in field excitatory postsynaptic potential shape induced by tetanization in CA1 region of the guinea-pig hippocampal slice	61
S. J. Taylor, S. A. Jones, J. Haggblad and **S. A. Greenfield**	"On-line" measurement of acetylcholinesterase release from the substantia nigra of the freely-moving guinea-pig	71
G. Behzadi, P. Kalén, F. Parvopassu and **L. Wiklund**	Afferents to the median raphe nucleus of the rat: retrograde cholera toxin and wheat germ conjugated horseradish peroxidase tracing, and selective D-[^{3}H]aspartate labelling of possible excitatory amino acid inputs	77
N. Kato	Effects of visual deprivation on the postnatal development of the geniculocortical projection in kittens	101
G. R. Hsiung and **E. Puil**	Ionic dependencies of tetrodotoxin-resistant action potentials in trigeminal root ganglion neurons	115
D. W. Cheung	Synaptic transmission in the guinea-pig vas deferens: the role of nerve action potentials	127
M. M. Okazaki, J. O. McNamara and **J. V. Nadler**	Kainate and quisqualate receptor autoradiography in rat brain after angular bundle kindling	135
P. I. Mapp, B. L. Kidd, S. J. Gibson, J. M. Terry, P. A. Revell, N. B. N. Ibrahim, D. R. Blake and **J. M. Polak**	Substance P-, calcitonin gene-related peptide- and C-flanking peptide of neuropeptide Y-immunoreactive fibres are present in normal synovium but depleted in patients with rheumatoid arthritis	143
J. E. Chastain Jr, F. Samson, S. R. Nelson and **T. L. Pazdernik**	Effects of microdialysis on brain metabolism in normal and seizure states	155

A. Nieto, E. Montejo de Garcini, I. Correas and **J. Avila**	Characterization of tau protein present in microtubules and paired helical filaments of Alzheimer's disease patient's brain	163
W. W. Blessing	Distribution of glutamate decarboxylase-containing neurons in rabbit medulla oblongata with attention to intramedullary and spinal projections	171
V. Kapoor, D. Nakahara, R. J. Blood and **J. P. Chalmers**	Preferential release of neuroactive amino acids from the ventrolateral medulla of the rat *in vivo* as measured by microdialysis	187
S. Schwarz, G.-Z. Zhou, A. G. Katki and **D. Rodbard**	L-Homocysteate stimulates [^{3}H]MK-801 binding to the phencyclidine recognition site and is thus an agonist for the *N*-methyl-D-aspartate-operated cation channel	193
N. C. de Lanerolle	A pontine call site in the domestic cat: behavior and neural pathways	201
G. Chakraborty, J. A. Sturman and **N. A. Ingoglia**	Regulation of the post-translational conjugation of amino acids to rat brain proteins	215
I. S. Zagon and **P. J. McLaughlin**	Opioid antagonist (naltrexone) stimulation of cell proliferation in human and animal neuroblastoma and human fibrosarcoma cells in culture	223
A. Parducz, L.-M. Garcia-Segura, D. Muller and **Y. Dunant**	Endo-exocytotic images and changes in synaptic transmission induced by diamide at a cholinergic junction	227
J. Delacour, O. Houcine and **J. C. Costa**	Modifications of the responses of barrel field neurons to vibrissal stimulation during theta in the awake and undrugged rat	237
R. Hari, H. Hämäläinen, M. Hämäläinen, J. Kekoni, M. Sams and **J. Tiihonen**	Separate finger representations at the human second somatosensory cortex	245
R. Balázs, N. Hack and **O. S. Jørgensen**	Selective stimulation of excitatory amino acid receptor subtypes and the survival of cerebellar granule cells in culture: effect of kainic acid	251
J. Coulombe and **M. Bronner-Fraser**	Development of cholinergic traits in the quail ciliary ganglion: expression of choline acetyltransferase-like immunoreactivity	259
M. Matteoli, C. Haimann and **P. De Camilli**	Substance P-like immunoreactivity at the frog neuromuscular junction	271
S. Sterrer, A. Königstorfer and **W. Hoffmann**	Biosynthesis and expression of ependymin homologous sequences in zebrafish brain	277
BOOK REVIEW **H. Stowell**	*The Emperor's New Mind.* By R. Penrose	285
VOLUME 37 NUMBER 2		1990
M. Dragunow, G. S. Robertson, R. L. M. Faull, H. A. Robertson and **K. Jansen**	D_2 dopamine receptor antagonists induce Fos and related proteins in rat striatal neurons	287
E. Heinonen, M. Leino and **K. E. O. Åkerman**	Low affinity binding to glutamate receptor sites correlates with depolarizing responses induced by glutamate and quisqualate in striatal synaptoneurosomes	295

K. Wictorin, D. J. Clarke, J. P. Bolam and A. Björklund	Fetal striatal neurons grafted into the ibotenate lesioned adult striatum: efferent projections and synaptic contacts in the host globus pallidus	301
J.-A. Girault, S. I. Walaas, H. C. Hemmings Jr and P. Greengard	ARPP-21, a cAMP-regulated phosphoprotein enriched in dopamine-innervated brain regions: tissue distribution and regulation of phosphorylation in rat brain	317
P. Fan, J. Lavoie, N. L. O. Lé, J. C. Szerb and R. F. Butterworth	Neurochemical and electrophysiological studies on the inhibitory effect of ammonium ions on synaptic transmission in slices of rat hippocampus: evidence for a postsynaptic action	327
R. Bartesaghi and T. Gessi	Electrophysiological analysis of the hippocampal output to the presubiculum	335
E. Kida and E. Matyja	Prevention of quinolinic acid neurotoxicity in rat hippocampus *in vitro* by zinc. Ultrastructural observations	347
F. Nothias, B. Onténiente, M. Geffard and M. Peschanski	Dissimilar responses of adult thalamic monoaminergic and somatosensory afferent fibers to implantation of thalamic fetal cells	353
E. Gould, C. S. Woolley and B. S. McEwen	Short-term glucocorticoid manipulations affect neuronal morphology and survival in the adult dentate gyrus	367
L. J. Kromer Vogt, B. T. Hyman, G. W. Van Hoesen and A. R. Damasio	Pathological alterations in the amygdala in Alzheimer's disease	377
F. Thibaut, E. C. Hirsch, R. Raisman, F. Javoy-Agid and Y. Agid	Microtopography of D_1 dopaminergic binding sites in the human substantia nigra: an autoradiographic study	387
J. C. V. M. Copray, G. J. Ter Horst, R. S. B. Liem and J. D. van Willigen	Neurotransmitters and neuropeptides within the mesencephalic trigeminal nucleus of the rat: an immunohistochemical analysis	399
G. A. Kuchel, R. L. Sherman and R. E. Zigmond	Recovery of function following unilateral denervation, but not unilateral decentralization, of the pineal gland as indicated by measurements of pineal melatonin content and urinary melatonin metabolites	413
J.-Y. Gillon, F. Richard, L. Quintin, J.-F. Pujol and B. Renaud	Pharmacological and functional evidence for extracellular 3,4-dihydroxyphenylacetic acid as an index of metabolic activity of the adrenergic neurons: an *in vivo* voltammetry study in the rat rostral ventrolateral medulla	421
J. M. Lawrence, R. J. Morris, D. J. Wilson and G. Raisman	Mechanisms of allograft rejection in the rat brain	431
H.-T. Weiler, H. Steiner and J. P. Huston	Plasticity in crossed and uncrossed tuberomammillary–striatal projections in relation to recovery from behavioral asymmetries induced by hemivibrissotomy	463
B. W. Newton, J. Unger and R. W. Hamill	Calcitonin gene-related peptide and somatostatin immunoreactivities in the rat lumbar spinal cord: sexually dimorphic aspects	471
U. Kuipers, U. Windhorst, Y. Laouris, T. Kokkoroyiannis and J. Meyer-Lohmann	Frequency characteristics and nonlinear features of responses of cat dorsal horn neurons to random stimulation of cutaneous afferents	491

J. W. Witkin	Access of luteinizing hormone-releasing hormone neurons to the vasculature in the rat	501
T. C. Cunnane and **R. Manchanda**	On the factors which determine the time-courses of junction potentials in the guinea-pig vas deferens	507
P. P. Sood, J. P. Richoux, M. Panigel, J. Bouhnik and **R. Wegmann**	Angiotensinogen in the developing rat fetal hindbrain and spinal cord from 18th to 20th day of gestation: an immunocytochemical study	517
A. Mandelzys, E. Cooper, V. M. K. Verge and **P. M. Richardson**	Nerve growth factor induces functional nicotinic acetylcholine receptors on rat sensory neurons in culture	523
C. A. Maggi, R. Patacchini, M. Tramontana, R. Amann, S. Giuliani and **P. Santicioli**	Similarities and differences in the action of resiniferatoxin and capsaicin on central and peripheral endings of primary sensory neurons	531
J. R. Holtman Jr, L. J. Marion and **D. F. Speck**	Origin of serotonin-containing projections to the ventral respiratory group in the rat	541
R. Martin, K. Schilling, W. Fritz and **A. Giuditta**	Visualization of differential neurofilament phosphorylation in the pre- and postsynaptic axoplasm of the squid giant synapse: an electron spectroscopic study	553
P. E. Johansson, L. Terenius, J.-E. Häggström and **L. Gunne**	Neuropeptide changes in a primate model (*Cebus apella*) for tardive dyskinesia	563
BOOK REVIEW **R. Barker**	*Neural Mechanisms in Disorders of Movement*. Edited by A. R. Crossman and M. A. Sambrook	569

VOLUME 37 NUMBER 3 1990

P. Redgrave, P. Dean and **G. W. M. Westby**	Organization of the crossed tecto-reticulo-spinal projection in rat—I. Anatomical evidence for separate output channels to the periabducens area and caudal medulla	571
K. Keay, G. W. M. Westby, P. Frankland, P. Dean and **P. Redgrave**	Organization of the crossed tecto-reticulo-spinal projection in rat—II. Electrophysiological evidence for separate output channels to the periabducens area and caudal medulla	585
B. Meister, M. J. Villar, S. Ceccatelli and **T. Hökfelt**	Localization of chemical messengers in magnocellular neurons of the hypothalamic supraoptic and paraventricular nuclei: an immunohistochemical study using experimental manipulations	603
B. E. H. Sumner, J. E. Coombes, K. M. Pumford and **J. A. Russell**	Opioid receptor subtypes in the supraoptic nucleus and posterior pituitary gland of morphine-tolerant rats	635
P. van den Hooff, M. A. Seger, J. P. H. Burbach and **I. J. A. Urban**	The C-terminal glycopeptide of propressophysin potentiates excitatory transmission in the rat lateral septum	647
J. DeFelipe, S. H. C. Hendry, T. Hashikawa, M. Molinari and **E. G. Jones**	A microcolumnar structure of monkey cerebral cortex revealed by immunocytochemical studies of double bouquet cell axons	655
J. Toldi, O. Feher, F. Joo, A. Antal and **J. R. Wolff**	Sodium bromide treatment influences the plasticity of somatosensory responses in the rat cortex as induced by enucleation	675

A. Bal-Klara and **M. M. Bird**	The effects of various antidepressant drugs on the fine-structure of neurons of the cingulate cortex in culture	685
H. E. Scharfman, D. D. Kunkel and **P. A. Schwartzkroin**	Synaptic connections of dentate granule cells and hilar neurons: results of paired intracellular recordings and intracellular horseradish peroxidase injections	693
L. Facci, A. Leon and **S. D. Skaper**	Hypoglycemic neurotoxicity *in vitro*: involvement of excitatory amino acid receptors and attenuation by monosialoganglioside GM1	709
S. Consolo, R. Bertorelli, G. L. Forloni and **L. L. Butcher**	Cholinergic neurons of the pontomesencephalic tegmentum release acetylcholine in the basal nuclear complex of freely moving rats	717
R. Kiefer and **G. W. Kreutzberg**	Gamma interferon-like immunoreactivity in the rat nervous system	725
G. A. Helm, P. E. Palmer and **J. P. Bennett Jr**	Fetal neostriatal transplants in the rat: a light and electron microscopic Golgi study	735
D. J. S. Sirinathsinghji, S. B. Dunnett, A. J. Northrop and **B. J. Morris**	Experimental hemiParkinsonism in the rat following chronic unilateral infusion of MPP^+ into the nigrostriatal dopamine pathway—III. Reversal by embryonic nigral dopamine grafts	757
L. Stinus, M. Le Moal and **G. F. Koob**	Nucleus accumbens and amygdala are possible substrates for the aversive stimulus effects of opiate withdrawal	767
S. Feldman, N. Conforti and **D. Saphier**	The preoptic area and bed nucleus of the stria terminalis are involved in the effects of the amygdala on adrenocortical secretion	775
A. D. McClellan	Locomotor recovery in spinal-transected lamprey: role of functional regeneration of descending axons from brainstem locomotor command neurons	781
D. Angaut-Petit, J. Molgó, J. X. Comella, L. Faille and **N. Tabti**	Terminal sprouting in mouse neuromuscular junctions poisoned with botulinum type A toxin: morphological and electrophysiological features	799
Z. Bing, L. Villanueva and **D. Le Bars**	Acupuncture and diffuse noxious inhibitory controls: naloxone-reversible depression of activities of trigeminal convergent neurons	809
U. Schwarzenbrunner, T. Schmidle, D. Obendorf, D. Scherman, V. Hook, R. Fischer-Colbrie and **H. Winkler**	Sympathetic axons and nerve terminals: the protein composition of small and large dense-core and of a third type of vesicles	819
T. R. Gordon, J. D. Kocsis and **S. G. Waxman**	Electrogenic pump (Na^+/K^+-ATPase) activity in rat optic nerve	829
S. Yoshida, E. Senba, Y. Kubota, S. Hagihira, I. Yoshiya, P. C. Emson and **M. Tohyama**	Calcium-binding proteins calbindin and parvalbumin in the superficial dorsal horn of the rat spinal cord	839
